PURPOSE OF ACQUISITIONS

The Company believes that the acquisitions are desirable because it will enable the Company to operate directly, rather than through licensees, a number of McDonald's restaurants whose proximity makes possible more economical and efficient operation.

Prior to the commencement of negotiations in connection with the transactions, the Company, through certain of its officers, employees and agents, investigated the financial condition, properties, management and markets of the acquired businesses and the value of the stock and assets which were to be acquired. The Agreements were entered into as a result of arms-length negotiations. The purchase price agreed upon was based upon the underlying value of the assets and earning power of the acquired businesses. No officer, director or principal stockholder of the Company, or any of its subsidiaries, had any direct or indirect beneficial interest in any of the stock or assets being acquired.

For accounting purposes, the acquisitions will be treated as a pooling of interests. Such accounting treatment has been reviewed and approved by Arthur Young & Company, the Company's Independent Certified Public Accountants, as being in accordance with generally accepted accounting principles.

RECENT DEVELOPMENTS

Since the latest annual report of the Company, there have been no important developments affecting the Company or its business which have not received publicity.

AUTHORITY FOR ISSUANCE

The Board of Directors of the Company approved and ratified the terms of the Agreements for the acquisitions and authorized the issuance of the Common Stock payable in connection therewith on April 1, 1974, concerning the San Bernardino and the Cleveland-Boodel acquisitions, and on April 25, 1974 concerning the Seattle-Tacoma acquisition.

OPINION OF COUNSEL

Mr. Donald P. Horwitz, 2111 Enco Drive, Oak Brook, Illinois 60521, General Counsel of the Company, has given his opinion to the effect that: (1) the issuance of the shares of Common Stock of the Company in connection with the acquisition described above has been duly authorized; (2) when delivered either at closing or thereafter in connection with the aforesaid acquisitions, the shares of Common Stock of the Company will be validly issued, fully paid and non-assessable; and no personal liability will attach to the holding of such shares under the existing statutes of Delaware, the state in which the Company is incorporated, or under the existing statutes of Illinois, the state in which the Company's principal office is located; (3) registration of the shares of Common Stock to be issued is not required under the Securities Act of 1933, as amended, because the issuance and delivery of such shares in connection with such acquisition will be in connection with a transaction not involving a public offering under Section 4(2) of such Act; (4) registration of the shares of Common Stock to be issued is not required under the Securities Exchange Act of 1934 because such shares are of a class previously registered under that Act.
